Re: Reference Letter for Iron Mechanical

Dear Terry:

The purpose of this letter is to provide an endorsement of Iron Mechanical based on our experience together working on the One South Market project in San Jose, CA.

Interface designs hundreds of projects each year and as a result works together with a multitude of Mechanical and Plumbing Subcontractors. Our experience together with Iron on One South Market, a mixed use residential 23 story high rise, was a pleasure and in our opinion differentiated Iron Mechanical as one of the top tier Subcontractors we've worked with. From our perspective, Iron Mechanical was thorough, knowledgeable, efficient and fully capable of constructing the HVAC and Plumbing systems on this fast paced, complicated project. They were fair and reasonable, and we have recommended them on subsequent projects due to the positive experience we encountered.

We will continue to recommend Iron Mechanical for future HVAC and Plumbing projects, and look forward to working together again soon.

If you have any questions, please contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Lasse".
